7 March 2008

Dear Mr Hurst

Subject: Southern Alliance Temporary Site Compound – The Hermitage

I refer to the Southern Alliance's email of 3 March 2008 regarding a temporary site compound to be located at The Hermitage in the Woomargama to Table Top section of the Hume Highway Duplication project.

It is noted that the proposed compound does not meet the location criteria specified for ancillary infrastructure in Condition 5.4 of the Concept Approval and therefore the Director-General's approval is required.

Approval for the construction and operation of the temporary site compound is granted for the purposes of the Hume Highway Duplication project between Woomargama and Table Top subject to:

- all commitments and mitigation measures made in the *Hume Highway Duplication Project Southern Alliance – Woomargama to Table Top* (dated 29 February 2008); and supplementary information provided in *Hume Highway Duplication Temporary Site Compound – The Hermitage* (dated 7 March 2008); and
- revision of the relevant Construction Environmental Management Plans and work method statements to incorporate the above referenced commitments and mitigation measures.

Please note that nothing in this approval should be taken as authorising any action that may be in breach, limit or constrain another condition contained in any other licence, approval, permit, consent or other legal requirements.

Yours sincerely

Scott Jeffries
Director, Major Infrastructure Assessments
as delegate of the Director-General
