Dear Mr Doolan

Albury-Wodonga National Highway (Hume Highway) Project Stage 2 – Concrete Batching Plant (Condition 75)

I refer to correspondence from the Hume Highway Southern Alliance (dated 9 October 2007) seeking Director-General's approval to locate a concrete batching plant off Wymah Road for Stage 2 of the Albury-Wodonga National Highway Project (Table Top to Mullengandra) in accordance with condition 75 of the Minister's approval (dated 23 January 1998).

It is noted that the proposed concrete batching plant will also be used for the Hume Highway Duplication – Woomargama to Mullengandra section (MP_06/0249) and that in relation to this approval (dated 29 August 2007):

- Director-General's approval is not required for the construction and operation of the concrete batching plant; and
- extended hours apply to construction activities which are different to those approved for the Albury Wodonga National Highway Project.

The Director-General approves the operation of the concrete batching plant subject to the following:

- for works associated with the Table Top to Mullengandra section of the Albury-Wodonga National Highway Project, the concrete batching plant may only be operated in accordance with Condition 28 of the Minister's approval for that project; and
- incorporation of the environmental management measures proposed for the concrete batching plant, as described in the document titled *Hume Highway Southern Alliance Concrete Batch Plant Wymah Road* (emailed to the Department on 29 October 2007), into construction environmental management plans and associated sub plans (including revisions to the *Table Top to Woomargama Construction Environmental Management Plan – August 2007*, submitted to the Department in October 2007).

Should you require any clarification regarding this matter, please contact Dinuka McKenzie on the above contact details.

Yours sincerely

 7-11-07

Lisa Mitchell
